

Mattheos Tasios

Junior Software Developer

👤 PROFILE

I am an ambitious and creative professional deeply passionate about programming. My expertise lies in crafting advanced applications and software using Java and JavaScript. With a strong foundation in emerging technologies, I excel in fast-paced, agile work environments.

My commitment to programming is unwavering, and I thrive on tackling new challenges and adapting to the ever evolving tech landscape. I am known among my peers for being stress-resistant, flexible, and solution-oriented, with a strong positive attitude.

In my search for the perfect role, I aim to leverage my skills and enthusiasm to contribute to impact projects and drive innovation in the tech industry. I am excited to take on fresh challenges and continue my journey towards fulfilling my dream job

📁 WORK EXPERIENCE

Owner and Software Developer at Pasver AB, Stockholm

August 2017 — Present

I develop applications and software using Java and JavaScript, contributing to the company's financial strength, supporting ongoing digital business transformation, and helping shape future strategies. I actively support innovation and problem solving, aiming to find my ideal role where I can continue making a significant impact.

Software Developer at Pasver AB, Stockholm

January 2022 — March 2022

During my second internship, I successfully developed two e-commerce applications:

The-Shop: A user-friendly e-commerce application with advanced features like product search, carousel, product rating, review system, and pagination. It also includes a seamless PayPal payment method. Technologies used: React, Redux, Node, Express, and MongoDB.

Spring-shop: A Full Stack Responsive e-commerce app with an Angular front-end and Java Spring Boot back-end, featuring REST APIs and a MySQL database. This application offers secure credit card payments through the Stripe API, modern shopping cart functionality, and a user-friendly interface.

Software Developer at Inext AB

August 2021 — November 2021

I created a survey app with smooth functionalities to ensure a user-friendly experience. Additionally, I worked on an existing web application where I identified bugs and enhanced the user interface. This was accomplished during my internship at Inext AB, completed
